## *Eskdale and Ravenglass*

Adjacent to the main line station at Ravenglass is the Ravenglass and Eskdale Railway. This narrow gauge steam railway heads east from Ravenglass and winds its way through the beautiful valley of Eskdale to its terminus at Dalegarth at the foot of Scafell Pike, England's highest mountain. It's a superb way to access many delightful walks.

1. From Dalegarth Station turn right and follow the road to the first turning on the left. Follow the lane to a fork; take the right branch over the River Esk. Pass the car park and follow the permissive path to a bridleway after the entrance to Dalegarth Hall.
2. Turn right and follow the bridleway alongside the river to join the valley road at Forge Bridge.
3. Do not cross the bridge; turn left and follow road to Forge House and a track on the right. Follow this west across a bridge to Muncaster Head. Continue past and turn left on to a track/bridleway.

Follow it as it heads generally southwest for 2km to a fork after High Eskholme.

Follow the left branch alongside a plantation. Once past the trees follow the bridleway to the A595.

4. Turn left for 200m to a path (by Hirst Lodge) on the right (the Cumbria Coastal Way). Follow it southwest alongside the river and past Muncaster Castle, then northwest around the base of Newtown Knott, then north past the Roman Bath House to Ravenglass.
